BCA (Computer Applications)	L.N.D. College, Motihari	75.80%	2021 – 2024

SKILLS

- **Languages:** Java, JavaScript,Python
- **Frameworks:** React.js, Node.js, Streamlit
- **Databases:** MongoDB, MySQL
- **Tools/AI:** Generative AI, Salesforce AI, Git

PROJECTS

CanvasResume

January 2026

- Developed a full-stack ATS-friendly resume builder platform with secure authentication and personalized user dashboard.
- Designed an intuitive dashboard allowing users to input details such as Basic Details, Name, education, projects, skills, and languages, along with dynamic template selection for resume customization
- Integrated LinkedIn job recommendations engine, displaying 10–15 relevant job opportunities based on user-entered skills and technologies
- Built an interactive MCQ practice module to help users improve domain knowledge and prepare for job assessments.

Multiple Disease-Prediction

September 2025

- Enhanced existing disease prediction tools, outperforming them by 3% in overall accuracy; furthermore, decreased prediction latency by 40ms, resulting in a more responsive user experience.
- Created an intuitive Streamlit-based web app for seamless user an interaction and real-time health predictions.
- Integrated pre-trained machine learning models, ensuring results exceeded 95% accuracy and deployed a user-friendly interface resulting in 400+ interactions within the first week for non-technical users.

ACHIEVEMENTS / CERTIFICATIONS

- **Salesforce AI Associate** Certified by Salesforce, focused on foundational AI concepts, enhancing data-driven insights, and optimizing decision-making to drive CRM-led business transformation and operational efficiency
- **MongoDB Developer's Toolkit** Proficient in database management and CRUD operations, with expertise in data aggregation, query optimization, and maintaining data integrity across large-scale systems

POSITION OF RESPONSIBILITY

IT & Development Head, Cyberanya, L.N.D. College

Sep'22 – Dec'23

- Developed, and deployed the official **Cyberanya event website** using **HTML, CSS, and JavaScript**, delivering a responsive and user-centric interface for seamless navigation and engagement.
- Implemented a robust **MySQL database** to efficiently manage participant data, registrations, and event records, ensuring data integrity and scalability.
- Utilized **FastAPI** for backend services to enhance performance, optimize API response time, and ensure efficient communication between frontend and database systems.
